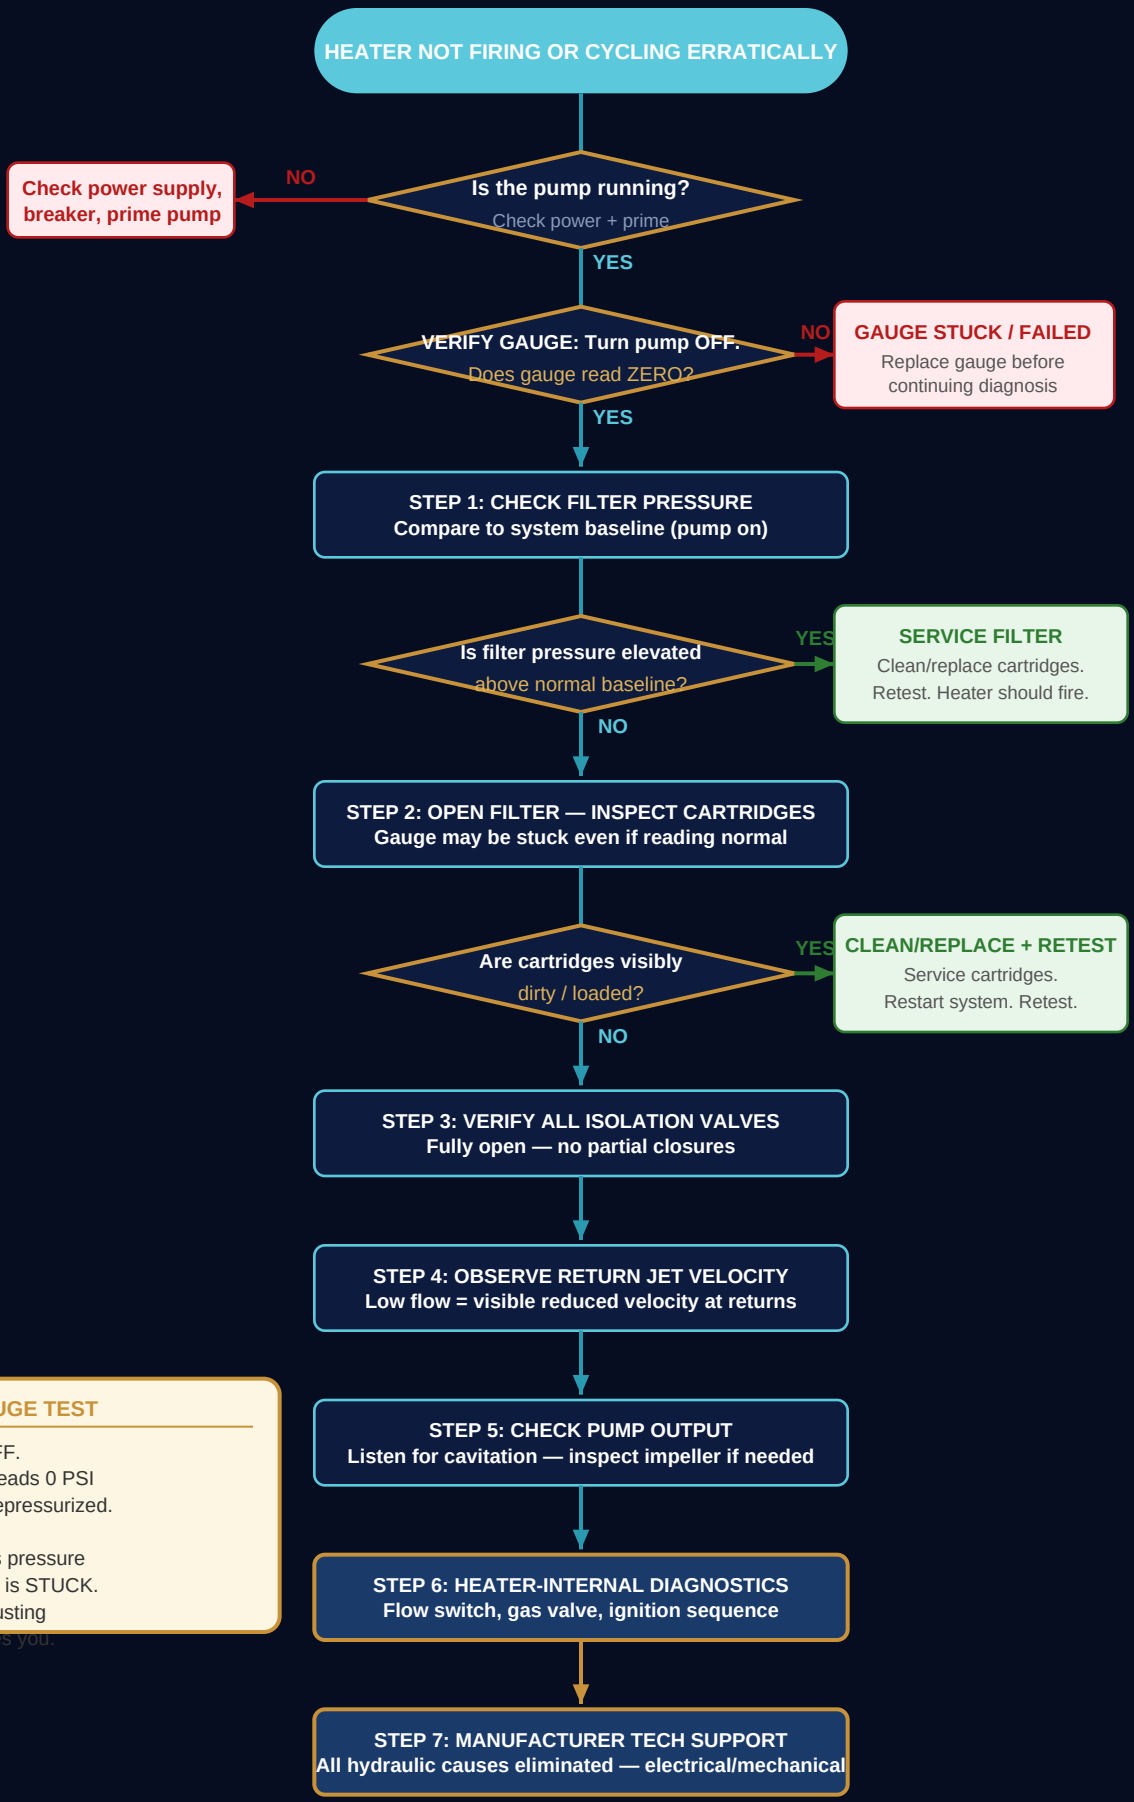
POOLS SCIENTIFIC — FLOW-RELATED HEATER DIAGNOSTIC FLOWCHART

Heater not firing or cycling erratically? Start here. Work top to bottom.

PoolsScientific.com | The Pools Scientific Podcast | Episode: The Lying Gauge



THE LYING GAUGE TEST

Turn the pump OFF.
A healthy gauge reads 0 PSI
when system is depressurized.

If gauge still reads pressure
with pump off — it is STUCK.
Replace before trusting
any reading it gives you.
